## **Enhancing Person-Centred Care**

They saw "something"  
on her mammogram.

ARTIST'S STATEMENT

**Collective Leadership and Safety Cultures (Co-Lead)**  
UCD School of Nursing, Midwifery and Health Systems

What does  
person centered care  
mean for our team?

# What is person-centredness?

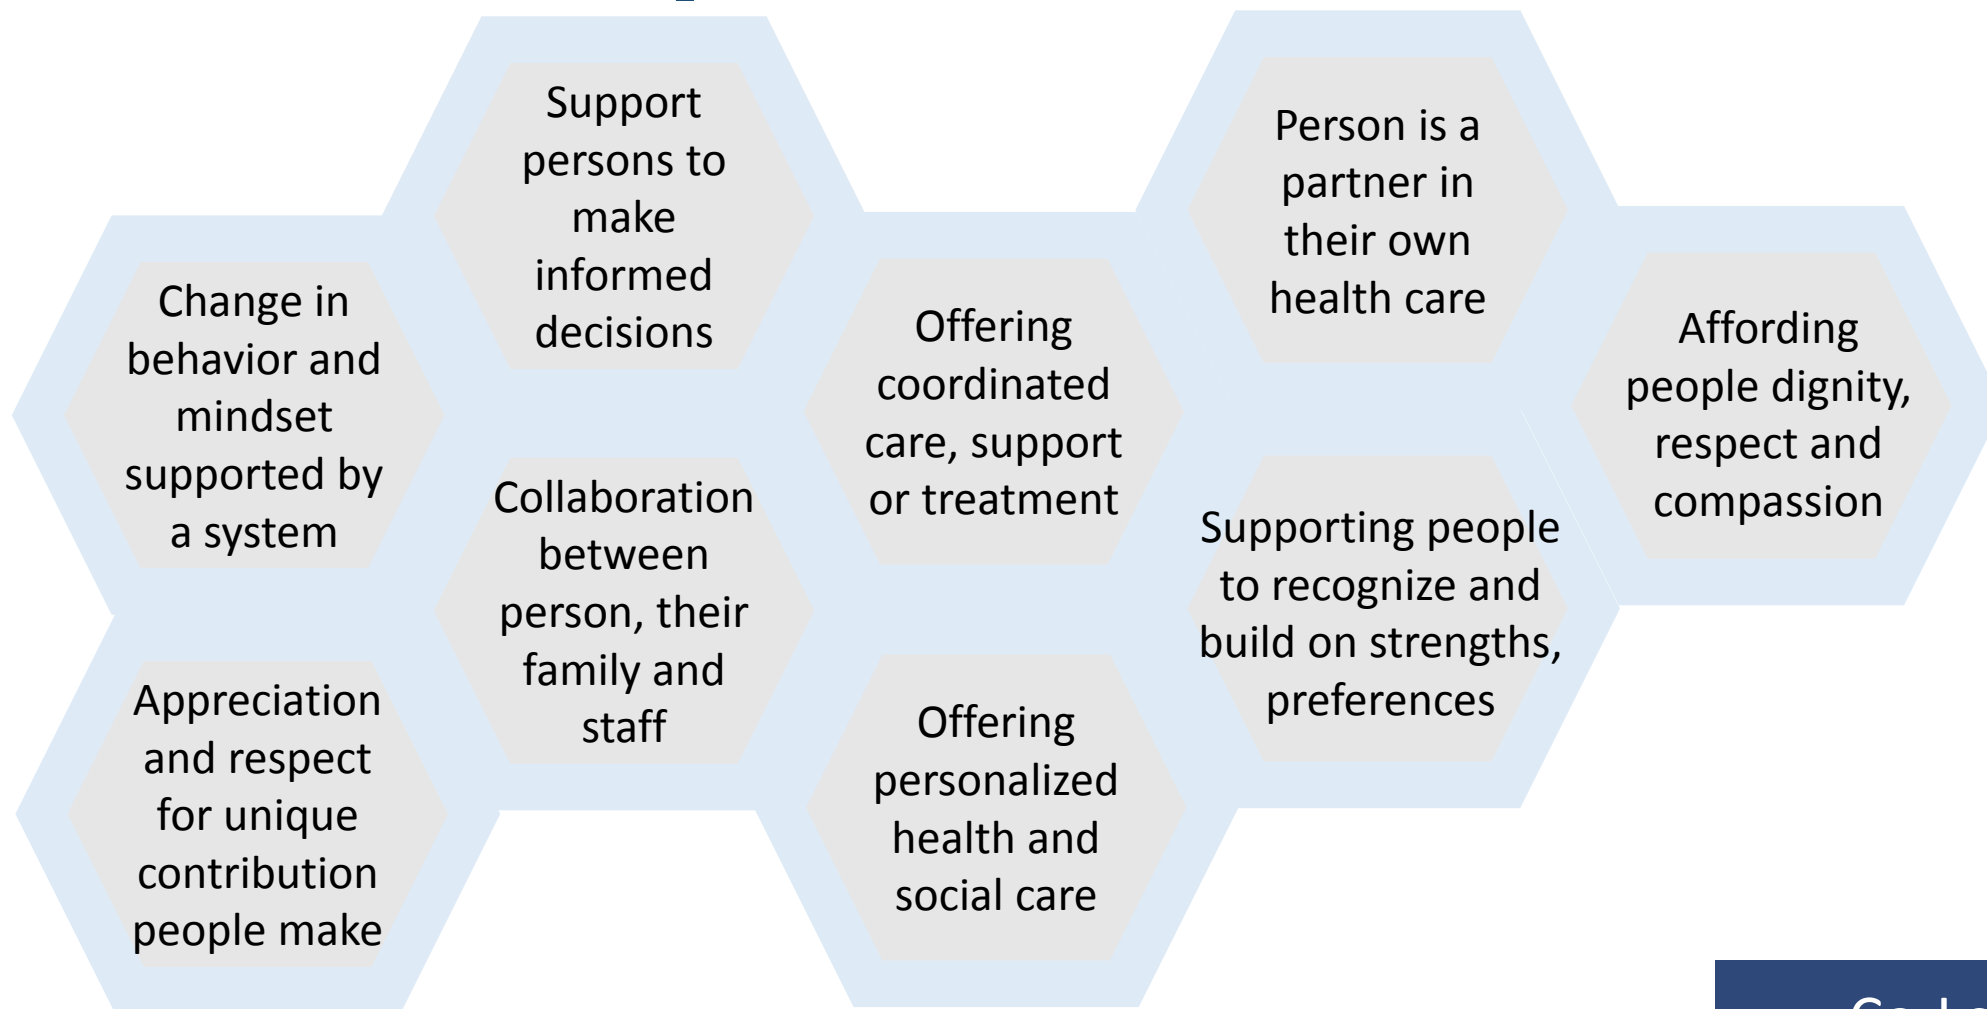

*“...care that is respectful of and responsive to individual patient preferences, needs and values, ensuring that patient values guide all clinical decisions”*

- Involving users of health and social services as equal partners in planning, developing and monitoring care
- Considering the person's point of view and being respectful
- Considering people's desires, values, family situations and social circumstances

# The Ladder of Engagement and Participation

Placing decision-making in the hands of the community and individuals

---

Working in partnership with communities and patients in every aspect of the decision including development of alternatives and identification of the preferred solution

---

Working directly with community and patients to ensure concerns and aspirations are constantly understood and considered

---

Obtaining community and individual feedback on analysis, alternatives and/or decisions

---

Providing communities and individuals with balanced and objective information to assist them in understanding problems, alternatives opportunities and solutions

---

## Partnership & Shared Leadership

What can we  
do as a team  
for developing a  
partnership and  
shared leadership  
with the patients

# Encouraging Person Centred Thinking

**Collective Leadership and Safety Cultures (Co-Lead)**  
UCD School of Nursing, Midwifery and Health Systems

What are the top 3 questions I should ask myself to be more person centred?

What are the top 3 questions I should encourage the patient to ask me to become more person centred?

**Collective Leadership and Safety Cultures (Co-Lead)**  
**UCD School of Nursing, Midwifery and Health Systems**

Discussing person-centered stories in weekly debrief meetings

Asking volunteers to share the top thing they did to encourage person centeredness during the past week

Using patient feedback such as thank you letters to share the story with the rest of the team
