From 1 April 2020, the HSE will reimburse the notified reference price for the relevant interchangeable products detailed above unless informed by the pharmacist that the GP has stated 'Do Not Substitute' in his/her own handwriting on any prescription presented for dispensing for any of the products in interchangeable groups.

Where a product is prescribed that is within one of the groups of interchangeable medicinal products, having completed the dispensing function, pharmacists are asked to record how the medical practitioner has prescribed by confirming one of the following:

- INN Prescribed
- Branded Generic Prescribed
- Proprietary Prescribed
- 'Do Not Substitute' invoked

If a patient presents a non-GMS prescription where the prescriber has written 'Do Not Substitute' it is important for the pharmacy to ensure that a photocopy of the prescription is retained so it can be made available to the PCRS as necessary to validate any claim for extra costs arising.

Your co-operation in ensuring a smooth transition for patients is requested.

Yours faithfully,

Shaun Flanagan,
Primary Care Reimbursement & Eligibility.
